Shown: Claret / Fog / Black hooded pull

When used as a couch extension the  
entire length measures,  
72"L x 27"W x 25"H

Features spring foundation

## W M C - Model 9050 Bed rail for couches w/wood or chrome legs

### 9050 Couch rails

These sturdy rails can be order and installed on your existing couches, or ordered and shipped with your new couch purchase.

### This illustrates the ease of installing your new Bed Rails

Begin by placing your couch upside down on a clean surface (Table or floor) with legs attached.

Place cross bar across bottom of couch and position next to couch leg with adjustment knobs facing the center of the couch. (figure 1 & 2)

Flush the wooden bracket on the cross bar with the bottom of the couch frame and secure the bracket to the frame using the #8 x 1 1/2" screws provided. (a cordless screw driver will make this task effortless, however this can be done using a common #2 Phillips screws driver.)

Once the wooden mounting brackets are secured, turn the couch right side up.

Insert the outer telescoping rail into the barrel of the head end cross brace, pull the spring loaded knob on the barrel and adjust the bed rail to the top position and release the knob to secure the rail. Repeat this process for the inner telescoping rail at the foot end cross brace.

Raise or lower the bed rail until the spring loaded knob (clicks) securely into the lower or upper adjustment holes, or until the rail stop securely rest against the barrel.

Repeat these steps to install the other bed rail onto the opposite side of the couch.

Sold in sets: Each set includes 2 pre-adjusted cross bars made specifically for your couch model and 2 telescoping rail sets to secure both sides of your couch. As shown attached to WMC models 8102, 8104 & 8904 Recovery Couches.

# Recovery Couches

## PRODUCT DESCRIPTION & TECHNICAL DATA

### RECOVERY COUCHES

Models with headrests:

Features adjustable multi-position and/or fixed headrest with paper dispenser, innerspring/no sag foundation, 2" foam and hardwood frame. Upholstered in your choice of 25 \**Naugahyde* vinyl colors.

\**Naugahyde* is a product of Uniroyal Engineered Products, LLC. (Made in the USA)

Models without headrests:

Features same as above with the exception of our Economy model which excludes a spring foundation.

**Frame:** Made from 21mm 15 ply Birch Plywood using ULEF (ultra-low-emitting formaldehyde) resins, which are consistently below the Phase 2 emissions standards. TSCA Title VI and CARB Phase 2 compliant!

**Springs:** (13) small loop 9 gauge no/sag springs, tied and covered with \**DUON*.

**Foam:** 2" flexible A-33 polyurethane foam (with range of 27 to 33 lb. density) which meets California requirement (TB 117-2013) containing NO added flame retardants.

**Fasteners:** Frame is assembled using 16 gauge x 2" staples and #8 x 1 1/2" pocket screws.

**Vinyl:** \**Naugahyde* developed to meet the rigorous demand of hospital, contract and institutional use. Meets the following flame retardant certification requirements: Cal 117-2013, MVSS-302, Port Authority of NY/NJ, FAA, FAR 25.853 A, BIFMA Class 1, Boston Fire Code IX-1, Fed. Spec. CID A-A-2950, NFPA 260, IMO FTP Code, Part 8. Mildew Resistant, Sulfide Stain Resistant, Oil Resistant, Cold Crack -20 degrees with advanced \**BeautyGuard* protective finish.

**Base Panels:** Made of 3/4" Melamine with the exception of the drawer sides, which are 1/2" MDF Melamine.

\**Funder*—Melamine Panels meet or exceed American National Standard A208.1 for 1-M-2 board, ALA and NEMA LD3-1995 and meet all requirements of applicable standard CS-236-66 for 1B2 mat-formed board. (TSCA Title VI Compliant)

All materials mentioned above are edged with PVC edge banding.

**Hardware:** Drawer slides are a premium quality bottom mount 100lb. capacity with *DELRON* rollers tested to 50,000 cycles. There are various other glued or stapled joints.

**Pulls:** Drawer pulls are available in oak, maple, aluminum, satin chrome wire and black or white hooded pulls.

**Shipping:** Each complete unit is shipped in two separate containers. The couch is wrapped in a plastic shrink film with foam protection at the corners and shipped in a double wall box. The base is shipped on a sturdy pallet with edge and corner protection in a heavy duty cardboard container.

Melamine is a \**Funder America* product.—\**Naugahyde* is a product of Uniroyal Engineered Products, LLC.

## Modular Taping Center with adjustable seating

Modular Taping Cabinets with adjustable seating allows the trainer to easily adjust the seating heights to 21-24-27-30-33-36-39-42".

All components are modular which allows you to build an entire room or begin with a few stations and add additional units anytime. Cabinets feature various drawer and door combinations and options such as an 18" cabinet w/trash chute & space for trash container. Seating features: plain seating—seating w/storage—seating w/individual leg pull outs and seating with an adjustable calf lift. Customize your order using our MODULAR TAPING DESIGN SHEET (page 33) or you can download a copy from our web site. Use the worksheet to arrange your group and draw each component to get your dimensions and see how it will look before you order. These units are extremely durable, made from materials that are easy to clean and can be re-arranged to accommodate each trainer. All interiors are white with a selection of 4 solid and 4 wood grain exteriors. You will also select 1 of 25 colors from our *Naugahyde* vinyl chart found in our catalog and on our website ([www.wmc-products.com](http://www.wmc-products.com)). You may also want to inquire about your **logo**.

Shown are product numbers above and below the **CT (cabinet top)**. This is an example of how easy this group is to design and order. Please note: Cabinets may join each other, however seating must be attached to a cabinet on each side to allow for height adjustments. You may also select one color from this chart for cabinets and a different color for seating or create all the same color!

Adding a Table extension: You may add these tables to the right, left or both ends of each group.

- 7650—Table end without storage,
- 7651—with individual leg pull out.
- 7652—with adjustable calf lift.

Please note: 7651 and/or 7652 will be placed on the side facing the front of each group (Shown: Maple)

- 7660—Table end with storage
- 7661—with individual leg pull out
- 7662—with adjustable calf lift

Please note: 7661 and/or 7662 will be placed on the side facing the front of each group (Shown: Maple)

# Treatment Tables

## PRODUCT DESCRIPTION & TECHNICAL DATA

### TREATMENT & EXAMINATION TABLES

**Finish:** Available in walnut, cherry, oak or natural finish with a catalyzed water borne top coat for an extremely hard and durable finish. *Agualente* stains and top coats are GREENGUARD certified products from M.L. Campbell wood finishing systems which produce superior resistance to marring, scratching, water, alcohol (200 proof) and household chemicals.

**Vinyl:** \**Naugahyde* developed to meet the rigorous demand of hospital, contract and institutional use. Meets the following flame retardant certification requirements: Cal 117-2013, MVSS-302 Port Authority of NY/NJ, FAA, FAR 25.853A, BIFMA Class 1, Boston Fire Code IX-1, Fed. Spec. CID A-A 2950, NFPA 260, IMO FTP Code, Part 8. Mildew Resistant, Sulfide Stain Resistance, Oil Resistant, Cold Crack -20 degrees with advanced \*BeautyGuard protective finish.

**Foam:** 2" flexible D-50 polyurethane foam (with range of 48 to 50 lb. density) which meets California requirement (TB 117-2013) containing NO added flame retardants.

**Frame:** Made of 3/4" veneer core white Maple hardwood plywood, edged with Maple wood edge banding. Shelf made of same material. All materials are CARB Phase 2 compliant.

**Legs:** Made of select hardwood furniture squares, most commonly Maple or Ash. Finished dimension 2-1/4" x 2-1/4" x required length.

**H-Brace:** Made of select #1 or FAS kiln dried Ash hardwood. Vendors are FSC certified.

**Hardware:** Leg brackets are stamp zinc plated steel 3" x 5-3/4" attached to frame with 1/4-20 carriage bolts x 4 ea. Legs attach to bracket with 3/8" x 3" lag bolt. Top is attached to frame using #8 x 1 1/2" Pocket screws, same applies to shelf. H-Brace attached using #8 x 2" screws.

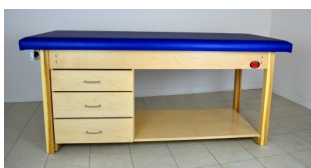

**Motion Models:** (Models with adjustable foot and backrest.) Footrest models are fabricated using (1) pair each 3.5 x 3.5 butt hinges with a (12) position adjustable mechanism (s). Backrest models have (1) pair each 2" x 5" 10 knuckle heavy duty modified lift hinge and adjustable mechanism (s).

**Cabinet Models:** (Deluxe Space-Saver Exam Tables with Medical Cabinet) Euro-style design with continuous wood, aluminum or wire pulls. Door hinges are Blum® series snap-on with 110 degree opening and independent side, depth and height adjustments.

**Paper Dispenser:** All tables include paper, dispenser and paper cutter.

**Shipping:** Units will be shipped set up and packaged on a sturdy pallet (**no assembly required**)

\**Naugahyde* is a product of Uniroyal Engineered Products, LLC.

AVAILABLE IN  
 4 SOLID COLORS &  
 4 WOODGRAIN COLORS

Exam Room Cabinets are very durable and easy to clean. The components are similar to those in our Modular Medical Cabinet line. Modular cabinetry can easily be re-arranged to meet your desired look and efficiency. Important information concerning Options:

- 6093—Stainless steel sink w/goose neck faucet & strainer basket is available in 24" and 30" base cabinets only. We will make the sink cutout in the counter top when the cabinet is manufactured. To ensure there is no mistake we ask that you submit with your order a photo copy of the group you are ordering and indicate the location of the sink by placing a (S) on the base cabinet pictured. There is no drawer at sink location.
- 6096—Work surface slide outs are available on 18" & 24" cabinets only. Please place a (W) where desired.
- 6099—Locks, you may choose to lock 1 or more doors and/or drawers. (note: 2 door cabinets require only 1 lock) Please place an (X) on each door and drawer on your photo copy and submit this information with your order along with the Group number (s) color and please note right or left handed cabinet (s).

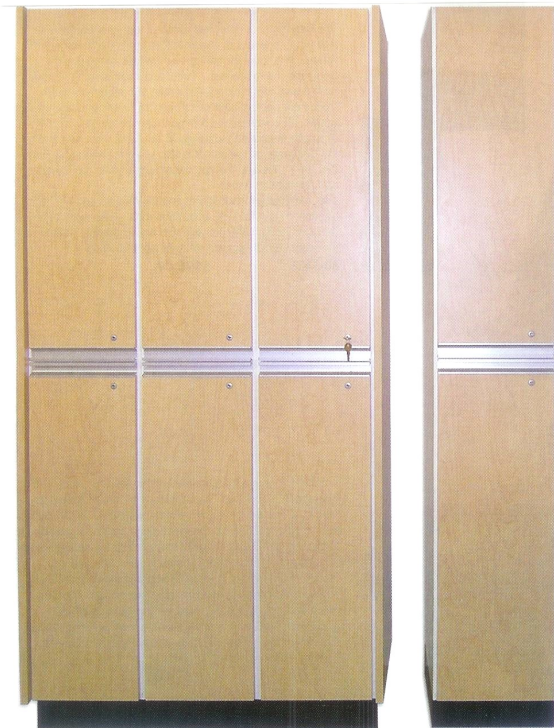

Model 6110 - Cabinet w/hutch < (left)

# *Modular Cabinetry*

## PRODUCT DESCRIPTION & TECHNICAL DATA

### Modular Medical Cabinetry

**Counter top:** Made from high-pressure laminates in one-piece construction with the exception to the mitered corner cabinet. Designed with a 3 1/2" back splash and rounded anti-drip front. CARB Phase 2 complaint.

**Wood components:** Nurse Cabinetry made to compliment Couch products (All wood components) made of 3/4" Melamine with the exception of the drawer sides and cabinet backs which are 1/2". \*Funder America Melamine Panels meet or exceed American National Standard A208.1 for 1-M-2 particle board, ALA - NEMA LD3-1995 and meets all requirements of applicable standard CS-236-66 for 1B2 mat-formed particle board. MDF substrates are also used w/melamine panel products. MDF-(medium density fiberboard) and Melamine thermo-fused laminated products are TSCA Title VI complaint.

The above applies to our standard line made from Melamine panels. Should you choose, a full spectrum of Formica or Wilson Art solid colors and wood grains in standard grade laminates are available.

**Wood components:** Sports Cabinetry made to compliment Table products. Cabinet interiors are made from the same materials as the Nurse Cabinetry, however the exterior components such as the dress panels, doors, and drawer fronts are made from wood veneers, most commonly 7 ply White Maple to insure continuity in grain and color. TSCA Title VI and CARB Phase 2 complaint.

**Finish:** Available in walnut, cherry, oak or natural finish with a catalyzed water borne top coat for an extremely hard and durable finish. *Aqualente* stains and top coats are GREENGUARD certified products from M.L. Campbell wood finishing systems which produce superior resistance to marring, scratching, water, alcohol (200 proof) and household chemicals.

**Pulls:** Drawer and door pulls are available in oak, maple, aluminum and black or white hooded pulls. (Sports Cabinetry commonly use satin chrome wire pulls which are also available)

**Hardware:** Hinges are concealed Euro-style Blum series snap-on with 110 degree opening and independent side, depth and height adjustments. Drawer slides are premium quality bottom mount 100 lb. capacity with delron rollers tested to 50,000 cycles. All units have an independent leveling system.

**Glass:** Glass doors are available on wall cabinets only and are cut from 1/8" acrylic.

**Sink:** 15" x 15" bar sink with gooseneck faucet, wrist handles and strainer basket.  
(Not included—supply lines, trap or tail piece.)

**Shipping:** Depending on size most configurations are shipped on a single sturdy pallet, under one counter top.

# Laptop Workstation / Whirlpool Table

Model 9240: without lock >>

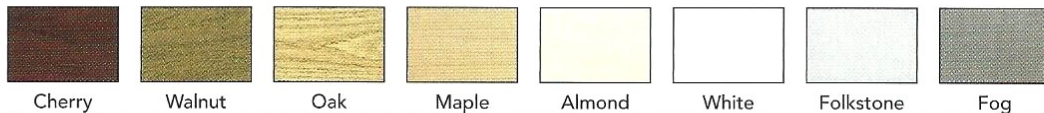

Model 9241: with lock >>>>  
(Laptop computer not included)

## 9240 / 9241: Wall Mount Computer Workstation

This sleek small wall cabinet is typically mounted in the hallways of hospitals, clinics and small rooms where space is limited. Used to securely store and/or charge a Laptop via USB charger (included) and to create a spacious 12" x 18" work surface when opened. Choose our model 9240 without lock or model 9241 which features a Dual Access lock that opens with a key or combination. Use the key to override and/or change the combination which may be shared to limit the need for several keys. This unit is extremely durable, made from laminated Melamine and features rounded corners and edges. Available in our standard cabinet colors shown below to compliment our full line of cabinet products. 24"W x 5 3/4"D x 24"H

7500: Whirlpool Table w/wood frame and laminated top & benches.

Superior  
Resistance to:

- Marring
- Scratching

- Alcohol (100 proof)
  - Household chemicals & water
- 

### Proper Care Instructions

**Remove Dust** - Dust buildup from small airborne particles may scratch or dull the surface if not removed correctly. Simply wipe the surface with a cloth dampened with a cleaning polish or mild detergent.

**Clean** - Fingerprints, cooking fumes, smoking residue, etc., accumulate on any finished surface. None of these contaminants will harm the finish, but they should be periodically removed to restore the finish to its original luster. Just wipe the surface with a cloth dampened with a non-wax containing polish or mild detergent solution. Avoid the use of ammonia based products or silicone oil, as they may cause damage if used over a long period of time.

The finish is durable and resistant to most household spills. However, spills should be wiped up promptly to avoid potential problems.

Excessive prolonged exposure to direct sunlight, high temperatures and high humidity can cause damage to both the finish and the wood itself. These should be avoided.

Following these simple steps will keep your finished piece looking like new for many years.

---

### GREENGUARD Indoor Air Quality Certified®

GREENGUARD Environmental Institute (GEI), in conjunction with the US Environmental Protection Agency (USEPA), has established the most stringent performance-based standards to define products with low chemical and particle emissions for use indoors.

GREENGUARD Certification Program assures the public that VOCs emitted from products like paints and finishes are controlled at the source.

M. L. Campbell finishing products are the first of their kind to achieve GREENGUARD Certification and assure our customers that our products improve indoor air quality and are environmentally conscious.

For GREENGUARD Certified projects, insist on M. L. Campbell's AGUA SERIES™ water borne finishes. Each of the GREENGUARD Certified products is ideal for kitchen, bath or general interior use and delivers the high performance finish you expect from M. L. Campbell.

# “Naugahyde” Vinyl Cleaning Guide

## Cleaning Naugahyde

### Advanced BeautyGard™ Protective Finish

Cleaning is a breeze with *Naugahyde* brand fabric and its advanced BeautyGard protective finish. While staining and soiling exposures are common to upholstery fabrics, most stain and soiling may be removed by using the cleaning methods that follow:

#### For Light soiling:

1. A solution of 10% household liquid dish soap with warm water applied with a soft damp cloth will remove most soiling.
2. If necessary, a solution of liquid cleanser and water applied with a soft bristle brush. Wipe away the residue with a water dampened cloth.

#### For Heavier soiling not solved by above method:

1. Dampen a soft white cloth with lighter fluid (naphtha) and rub gently. Rinse with water dampened cloth.

NOTE: Use **extreme** caution with this method. Complete only in a well-ventilated area away from any open flame.

NOTE: You should **try this method on an inconspicuous spot** before using it on the original stain/soiling.

#### For the most difficult stains not removed by the above methods:

1. Dampen a soft white cloth with a solution of household bleach (sodium hypochlorite), 10% bleach, 90% water.
2. Rub gently.
3. Rinse with a water-dampened cloth to remove bleach concentration.
4. If necessary, allow a 1:10 diluted bleach solution to puddle on the affected area or apply with a soaked cloth for approximately 30 minutes. Rinse with water-dampened cloth to remove any remaining bleach.

NOTE: You should **try this method on an inconspicuous spot** before using it on the original stain/soiling.

NOTE: To restore luster, a light coat of spray furniture wax can be used. Apply for 30 seconds and follow with a light buffing using a clean white cloth.

### Antimicrobial

Naugahyde with Advanced BeautyGard provides outstanding protection in difficult medical and health care environments. Contains agents effective against bacterial and fungal microorganism.

### Please review carefully

**CAUTION:** Should you desire to use other cleaning methods, carefully try them in an inconspicuous area to determine potential damage to the material. Never use harsh solvents or cleaners which are intended for industrial applications. To clean stained or soiled areas, a soft white cloth is recommended. Avoid use of paper towels.

**CAUTION:** Cleaning products may be harmful/irritating to your skin, eyes, etc. Use protective gloves and eye protection. Do not inhale or swallow any cleaning product. Protect surrounding area/clothing from exposure. Use in a well ventilated area. Follow all product manufacturer's warnings. Naugahyde cannot be held responsible for damage or injuries resulting from the use or misuse of cleaning products.
